

Belvoir Special School Newsletter

38 Gayview Drive, WODONGA, 3690

On Wednesday 23rd November, Belvoir Special School held our Post Schools Expo.

It was fantastic to see so much support from the wider Belvoir School community after several years of absence. Over 20 different vendors were present and presented information about how they can assist parents in making sure that students at Belvoir get the best education possible.

The expo also was an opportunity to show parents and vendors the new Vocational Pathways direction that Belvoir is taking to align with the new VPC. As of 2023 Belvoir has joined with Gre8 and National Food Institute and aligned with Merriwa Industries to create an SBAT (School Based Apprenticeship and Traineeship) program for Manufacturing. This means that our students will be completing the VPC three days a week and completing VET (Vocational Education and Training) and a work placement on the other two days. The plan is to then expand on our VET offerings in 2024 & 2025 to include Horticulture and Hospitality. Thanks to all those who helped set up and make it possible. A huge thank you to all those who attended. We can't wait to make this a regular part of the Belvoir Calendar moving forward and are already preparing for 2023.

Thanks

Brad Vallance

ROOM 3 NEWS

Clare, Emily & Chloe

Room Three have had a very busy Term 4!

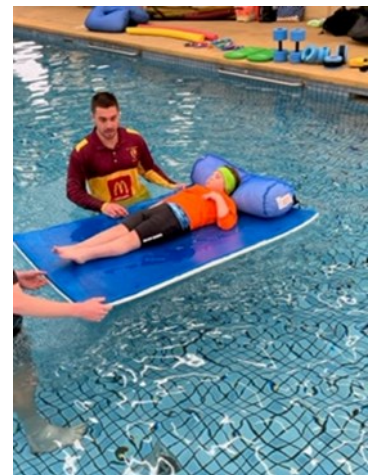

As we are now heading into the last three weeks of term, we have been incorporating more play and outdoor learning opportunities into our program. The students have thoroughly enjoyed exploring various play activities such as, dolls, cars, pasta, shaving foam, cloud dough, bike riding, craft and so much more. Play has provided our students with the opportunity to build on their communication skills, whilst also sharing their imaginative ideas with each other and staff.

Oliver and Rory have also had a great time at Hydro swimming this term

ROOM 7 NEWS

Sara, Linda, Jo & Domeika

We have had a wonderful Term 4!

We have been learning about Myths and Legends during Literacy. The students really enjoyed an activity where they created their own mythical creature. In Math, we have been learning about Money. The students became very good at counting small collections of coins and figuring out how to make the same total in a couple of different ways. This term the students have enjoyed going on some class outings, including the Wodonga Library and Arnolds Fruit Market. Today the students had heaps of fun participating in our Colour Run!

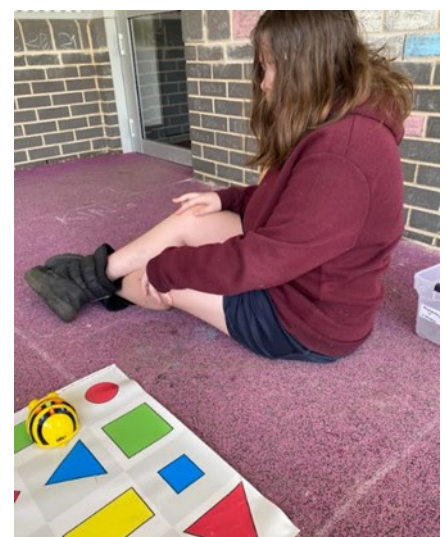

ROOM 13 NEWS

Josh & Michaeli

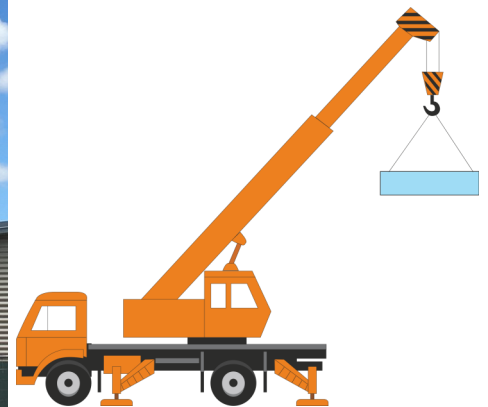

What a busy term it has been for Room 13! This week we have started to look at our new maths topic: time. The students have been learning about the features of analogue and digital clocks. They created their own examples of each clock to practise telling the time with.

During our Term Topic sessions, we have been learning about technology around us, how to say safe using technology and how to code using BeeBots as well as the computer. The students have particularly enjoyed our lessons using code.org, where they have learned how to use the basic building blocks of code.

This Monday we were also lucky enough to experience the 'Express Yourself' Hip-hop and rap workshop. The students loved the performance and were given opportunities to create lyrics, rap and use a turntable.
